California • zacrice.dev • zacrice2222@gmail.com • (209)-269-0588

Developer based in California with 3 years of coding education. I have a passion for game development and expanding my knowledge base. Driven by the desire to collaborate on a project that achieves great success.

Work Experience

January 2024 - April 2024

CodeStack Internship - *Web Developer*

- Assisted with maintaining, debugging, and modifying existing code on large-scale applications.
- Added new features and updates to San Joaquin County Office of Education (SJCCE) applications, Captain, and IHub.
- Added new features to websites working full-stack using Angular, React, NextJs, C#, JavaScript, Typescript, and SQL.

March 2022 - December 2023

Burlington - *Receiving*

- Assisted in efficient unpacking and tagging of merchandise for placement on the sales floor, ensuring accuracy in pricing and labeling.
- Provided assistance to customers by engaging and assisting to identify their needs and answer questions. Offer recommendations and effectively guide customers to ensure satisfaction.

April 2019 - June 2020

The Habit - *Cashier*

- Responsible for accurately taking and fulfilling orders, managing money transactions, and working as a team to ensure customer satisfaction.
- Effective multitasking abilities by managing transactions, food preparations, and keeping things clean and organized.

Education

September 2022 - January 2024

CodeStack Academy – Stockton CA

- Immersive and accelerated 18-month program dedicated to project-based learning that requires strong commitment, communication, collaboration, creativity, time management and problem-solving skills. Learned the newest coding technology and built apps and websites from scratch
